REMARKS

Applicant submits the foregoing amendments and following remarks in response to the Office Action dated January 11, 2007. Claims 1-9 remain pending in the application.

Drawings

The drawings were objected to because the lines, numbers and letters are not uniformly thick and well defined, clean and black. Additionally, the numbers and reference characters are not plain and legible.

Applicants submit herewith replacement drawing sheets with corrected Figures 1-17. No new matter has been added.

Specification

The abstract of the disclosure was objected to for including legal phraseology. The abstract has been amended to delete reference numbers and to correct the language.

The disclosure was objected to because customary U.S. patent headings are missing. The specification has been amended to add in the headings.

No new matter has been added by way of these amendments.

Claim Rejections

Claims 1-9 were rejected under 35 U.S.C. §112, second paragraph for being indefinite. Specifically, Claim 1 was rejected for including the phrase "which is embodied," which is vague and indefinite. Claims 2, 3 and 6 were rejected for lack of antecedent basis for the plurality of "door elements." Claims 4 and 7-9 were rejected for lack of antecedent basis for the plurality of "pivoting arms."

Applicant has corrected the claim language, and believes the amendments overcome the rejection under 35 U.S.C. §112, second paragraph. Withdrawal of the rejection is respectfully requested.
